City Rally / City Teambuilding

Overview of our teambuildings, rallies, team events in the jungle of Hamburg, Berlin, London, Barcelona and many more venues

GPS City Rally

The GPS City Rally is one of our most requested activities and a real classic. A City Rally typically involves teams of 6-10 persons who compete against each other. Participants are required to solve a wide range of tasks round and about city attractions and other exciting locations. The whole (small-) team should work together creatively within the activity. Furthermore, the team has to get help of other city residents for some tasks.
